## THREE of a KIND

Trapped in a nightmare marriage, a woman contends with the deadly control of her husband in this sexy, edgy, psychological thriller -- first falling in love with the man her husband hires to watch over her, and then running from the bullets of the assassin he hires to kill them both.

*"What should I take away from you...any ideas?"*

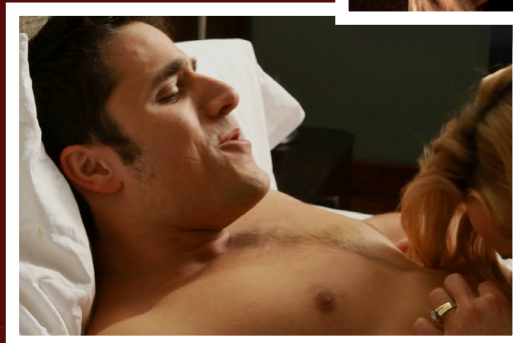

## THREE of a KIND

THREE of a KIND is sexy and dangerous with a grin...a psychological thriller that will make your heart pound. Victor (Tom Adams) comes on to Anna (Jodi Russell) like a force of nature. "I'm the man of your dreams" he tells her, but in reality Victor becomes the man of her nightmares. Victor has nightmares of his own - haunting childhood memories that he relives with his sister (Margot Kidder).

Victor distributes illicit drugs behind the backdrop of his opulent casino. He frequently visits Buenos Aires to meet with his heroin contact and reluctant business partner, Giovanni (Mario Di Donato). Since Victor travels often and wants complete control over his wife, he assigns Michael (Jared Zirilli) to watch her while he's away.

Now things get really juicy when Michael and Anna become more than just friends. As Victor catches wind of their torrid affair, he orders his hired assassin, Christina (Jessica Manuel) to take care of Anna. Now Anna must run for her life and play the game...or die trying.

You'll find romance, intrigue and revenge in this fast-paced drama that takes you all over the globe and keeps you guessing until the end.
